**Wall Street Analyst Ratings**
Ratings based on consensus and price targets on the stock provided by Wall St. Analysts covering the stock

**Factor Grade - Valuation**
This factor or style is a framework that helps investors determine if a stock is trading at levels above or below its fundamentals investment characteristics such as dividends, earnings, sales, cash or book value. Investors typically try to identify stocks that are good values. A stock with a Seeking Alpha Value Grade of A+ is very attractive and is viewed as undervalued compared to the sector.

**Factor Grade - Growth**
This factor refers to companies where sales, earnings, and profitability are expected to grow at a rate significantly higher than the market average market growth rate. A stock with a Seeking Alpha Growth Grade of A+ is very attractive and is viewed as growing faster than the sector.

**Factor Grade - Profitability**
This factor refers to a company's ability to earn profits from its sales or operations, balance sheet assets, or shareholders' equity. Profitability ratios indicate how efficiently a company generates profit and value for shareholders. A stock with a Seeking Alpha Profitability Grade of A+ is very attractive and is viewed as being more profitable than the sector.

**Factor Grade - Momentum**

This factor refers to a stocks velocity of price change compared to the sector as opposed to the actual price levels themselves. Momentum is measured by continually taking price differences for a fixed time period. Seeking Alpha incorporates and combines different time periods into this grade. A stock with a Seeking Alpha Momentum Grade of A+ is very attractive and is viewed as having better price action compared to the sector.
